GUIDANCE

PSAE: The Learning Institute's Guidance Department is available to provide a variety of student services. The school's Academic Advisor will assist students in obtaining a realistic understanding of personal strengths and needs in order to make proper choices concerning their education.

Appointments

Students wishing to meet with the academic advisor must first sign up for an appointment. Students may make appointments in person outside of class time, by email or phone call. Under no circumstances are students to leave class to make appointments. Faculty and staff will refer to situations requiring immediate attention.

- Students may not change electives after the withdrawal date and it will only be done for extreme situations.
- Class fees are non-refundable if the class is dropped.

ECAPS (Education and Career Action Plan)

An ECAP reflects a student's current plan of coursework, career aspirations, and extended learning opportunities in order to develop the student's individual academic and career goals.

We as educators believe that integrating an Education and Career Action Plan (ECAP) process into all facets of the school experience enables students to be lifelong learners and problem-solvers, developing and applying 21st-century skills to their life experiences, as students, as workers, as consumers, and as responsible citizens. With the ability to identify skills and interests and to apply that knowledge to create their own ECAP, our students will have developed the needed skills to advance in a more fluid, seamless transition, meeting 21st Century technologies and workplace postsecondary requirements.

Source: <http://www.azed.gov/ecap/>

Students will meet with the Academic Advisor once a semester to review their ECAP in order to make any necessary changes or updates. Students will have access to their ECAP via their personal Google Drive account.

Academic Assessment

Each student's educational skills are assessed with the appropriate tests. The results of the tests, as well as the first two weeks of school, will assist in developing an individual graduation plan for each student.

Graduating Procedures

When seniors have completed all coursework required to earn their high school diploma they must set up an appointment with the registrar to officially check out from the school. No senior will be considered graduated unless this process is complete. If a senior does not go through graduate check out, it may result in not being able to participate in graduation ceremonies and/or receiving his/her official diploma.

Makeup Work/Hours and School Attendance Hours

It is the student's responsibility to make sure that work is completed, and any days missed may affect their graduation timeline. An excused absence does not excuse the student from the work assigned in his/her classes.

The law requires that students in grades 7-8 attend school 32.5 hours per week and students in grades 9-12, 20 hours per week. Students must attend school for 7 hours per day and make up any hours missed to be given credits.

ADMISSIONS

PSAE: The Learning Institute is designed for students in 7th to 12th grade (up to 21 years of age). In order to be admitted to PSAE: The Learning Institute, students must withdraw from their previous school, turn in a PSAE/ TLI Enrollment form, and complete a pre-enrollment interview.

Credits may be transferred for courses completed at acceptable accredited schools. Work must be verified through an official transcript.

Potential students will be scheduled to meet with the School Principal to review school records including credits, attendance, discipline, and test scores. All records must be available before a meeting can be scheduled. Students are required at initial registration to report school expulsions and arrests resulting in juvenile justice actions.

Students are encouraged to attend a New Student Orientation. Orientation will cover Student and School policies and a class schedule will be designed with individual goals, choices, and needs in mind. Students will also take an entrance assessment test for Mathematics and English Language Arts.

Student Records

Required student records will be prepared, maintained and destroyed in accordance with State and Federal laws. The School will comply with the provisions of the Family Educational Rights and Privacy Act (FERPA) and the Individuals with Disabilities Education Act (IDEA) in the establishment, maintenance, correction and disposition of student records, as well as the confidentiality provisions contained in those laws. Parents and students should review the “Annual Notification to Parents” letter contained in Section IV of this Handbook and sign and return the Acknowledgement of Receipt form included in the Handbook.

Immunizations of Students

Subject to the exemptions provided by law, immunization against diphtheria, tetanus, pertussis, poliomyelitis, rubeola (measles), mumps, rubella (German measles), hepatitis B, and Haemophilus influenza b (Hib) is required for attendance of any student in any school. A student’s immunization record must be submitted prior to attendance unless the student has been conditionally enrolled provided that necessary immunizations have been initiated and a schedule has been established for completion of the required immunizations. A student who fails to comply with the immunization schedule must be suspended from school, except that a homeless student shall not be suspended from attendance until the 5th calendar day after enrollment. Please contact Julie Palma for further information regarding immunizations of students or exemptions for immunizations.

Waiting List

The Arizona Department of Education mandates a lottery if there is a need for a waiting list for PSAE/TLI. Priority will be given to returning students and siblings. The lottery will determine who will be provided the next available space at the school. Each spring a lottery will be held if needed for the following school year.

STUDENT ATTENDANCE, COMPULSORY ATTENDANCE, TRUANCY/ABSENCES AND EXCUSES

The School will enforce the laws regarding attendance with consideration for the variables that affect children and families. It is unlawful for any child between the ages of 6 and 16 to fail to attend school during school hours, unless the child is properly excused from attending.

When a student is absent from school, the parent must call the school on or before the day of absence in order to advise the school as to the reason for the absence. All absences not verified by parental or administrative authorization will remain unexcused. If a parent does not have access to a phone, a note will be accepted for verification purposes. For absences greater than 1 day in length, the school should be notified for each day of the absence. If students miss more than 10 days per semester, the school has the right to not give any credits for that semester and may be withdrawn from school.

CLOSED CAMPUS

PSAE: The Learning Institute is a closed campus for all students, from the beginning of the school day until dismissal. Students are expected to be on campus and may not leave. This includes going to the parking lot without the permission of the school administrator. A student may be subject to disciplinary action when this policy is broken. Parents wishing to have a student excused for part of the day must obtain permission from a school administrator or parent before the student may leave.

STUDENT DRIVERS & CAMPUS PARKING

Student drivers will be required to register their cars with the front office prior to parking in the school's parking lot. They are to understand and follow parking lot speed limits and be considerate to our business neighbors by keeping their car stereos at a low volume.

Office personnel will not typically disrupt class to deliver messages to students. Only in cases of extreme emergency will a message be delivered during instructional time.

FOOD AND DRINK

No food or drinks are allowed in any of the classrooms. There will be a designated area in each classroom for food and beverages. Beverages, microwavable meals, and snacks are sold in the school's snack bar (The Beestro), located in the student break room. Water fountains are provided for students throughout campus. SEARCH AND SEIZURE

School administrators have the right to search and seize property; including school property temporarily assigned to students, when there is reasonable suspicion that stolen property, or some material or matter detrimental to health, safety and welfare of the student or others exists.

Lawful searches may include the search of a student's personal property such as backpacks, purses or pockets. Searches will be reasonable in scope and not excessively intrusive on the student in light of the age, sex of the student, nature of the infraction, property or item involved, and the type of conduct alleged. Strip searches are prohibited.

PARENT LIABILITY / POSSIBLE FINES AND CHARGES

Parents of minors who damage school property are liable for all damages. Students will be held responsible and accountable for loss or damage to school property, including library books, electronics, headphones and textbooks.

FIRE DRILLS/LOCKDOWN PROCEDURES

Fire drills are held monthly. Lockdown drills are also practiced.

EQUAL EDUCATIONAL OPPORTUNITY AND NON-DISCRIMINATION

Our Governing Board is committed to a policy of nondiscrimination (including non-harassment) in relation to race, color, religion, sex, age, national origin, and disability.

The right of a student to participate fully in classroom instruction will not be abridged or impaired because of race, color, religion, sex, age, national origin or disability, or any other reason not related to the student's individual capabilities.

If a student or parent believes that a student has been unlawfully excluded from participation or denied the benefits of, or otherwise subjected to discrimination in any School program or activity (or any program or activity receiving the School's financial assistance), the student or parent may file a complaint with the School, so the matter can be properly investigated and resolved. A copy of the School's Student Concerns, Complaints and Grievances procedure is included in Section III of this Handbook. Further information regarding Federal non-discrimination statutes (such as Title VI, Title VII, Title IX, Section 504 and the Americans with Disabilities Act) and the School's grievance/complaint procedures can be obtained from the Director.

SEXUAL HARASSMENT

All individuals associated with the School, including, but not necessarily limited to, the Governing Board, the administration, the staff, and students are expected to conduct themselves at all times so as to provide an atmosphere free from sexual harassment. Anyone who is subject to sexual harassment or who knows of the occurrence of such conduct should inform the Director, who has been designated the School's Compliance Officer.

CHILD IDENTIFICATION AND REFERRAL

The school will ensure that all children within its responsibility who have suspected disabilities are identified, located and evaluated. This process is important to the provision of educational opportunities for all students. The process of identification, evaluation, development of program, placement and the provision of services (often referred to as a “free, appropriate public education”) is guided by a variety of laws and regulations.

Identification procedures will be completed within 45 calendar days after:

(a) Enrollment for each new student enrolling or (b) Notification to the School by the parent of concerns regarding their child’s developmental or educational process. Local school districts will be identified for referring parents of children from birth through 2.9 years who require screening, evaluation or early intervention services.

If the identification procedures indicate a possible disability, a referral for evaluation will occur only after appropriate consultation among the administrator, the parent, and the teacher or through a child study team discussion. Parents and/or students may request a referral for evaluation and are encouraged to follow a similar pattern of discussion and agreement.

The referral of a student for evaluation for possible placement in special education and related services shall be made by the administrator after notifying parents of their rights and after documenting the informed consent of the parent or guardian. When the parent does not refer to the child, the parent must be provided notice of referral for evaluation within 7 days. Such parental consent will be obtained within 15 calendar days after the disposition of the referral and the determination to evaluation. Absent the consent of the parent or guardian, mediation or due process procedures may be used to address the issue of referral for evaluation.

The written notice of referral will include a copy of the procedural safeguards available to the parents of a child with a disability. Translation of the notice will be made by an interpreter when necessary to ensure understanding. The person or persons making the initial referral shall be notified within 30 calendar days regarding the status of progress of the referral. To refer a child for screening or evaluation, or for additional information regarding special programs, contact the Director.

SPECIAL INSTRUCTIONAL PROGRAMS

Upon request, the School will provide parents with its written procedures relating to: (a) Initial full and individual evaluation of students suspected of having a disability; (b) Re-evaluation of students previously identified as being eligible for special education; (c) Development, implementation, review and revision of Individualized Education Programs (IEPs); (d) The delivery of special education services in the least restrictive environment;

(e) Procedural safeguards; (f) Confidentiality of records and information;

(g) Preschool program; and (h) Access to special education services to students enrolled in private schools. A complete copy of the School’s Policies and Administrative Regulations relating to the Individuals with Disabilities in Education Act (IDEA) is available at the school office.

ACCOMMODATIONS FOR DISABLED STUDENTS

Students may be eligible for services under the provisions of Section 504 even if they do not require services pursuant to the IDEA. A student who may need special services or programs under Section 504 is one who: (a) Has a physical or mental impairment that substantially limits one or more major life activity, including learning; (b) Has a record of such impairment; or (c) Is regarded as having such impairment. The School is responsible for identifying and evaluating students who may qualify for the protections of Section 504 and for providing such students with a free, appropriate public education. To refer a child for screening or evaluation, or for additional information regarding special instructional programs contact the Director.

ADMINISTRATION OF MEDICATIONS TO STUDENTS

When a student needs to take medicine during normal school hours, the School will generally permit the administration of the medicine to the student if the following requirements are met: (a) The parent provides the school with a written order from the student's physician stating the name of the medicine, the dosage, and the time it is to be given; (b) Parent written permission to administer the medicine or to allow the student to self-administer the medicine; and (c) The medicine comes to the school office in the prescription container, or if it is over-the-counter medicine, in the original container with all warnings and directions intact. Appropriate forms are available in the school office. Tylenol will only be available to students for extreme situations

During D60, students will be required to work on school work such as homework, note taking or test reviews.

Individuals who refuse to attend D60 will face additional disciplinary actions; such as being put on a behavioral contract, in school suspension or out of school suspension.

Procedures:

- At 2:15 PM, D60 Facilitator will collect all individuals participating in D60 and walk them to the assigned detention room.
- Attendance will then be taken.
- Laptops will be distributed and documented.
- Individuals will remain in D60 until assigned time has been completed.
- D60 Facilitator will collect school laptop and dismiss each student once their time is served.

Note: D60 Students will not have access to their backpacks, purses, hats, and skateboards from the school lockups until D60 is served.

ANNUAL NOTIFICATION TO PARENTS REGARDING CONFIDENTIALITY OF STUDENT EDUCATION RECORDS AND SCHOOL DIRECTORY INFORMATION

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the confidentiality of student educational records. The Individuals with Disabilities Education Act (IDEA) also contains requirements relating to the confidentiality of student educational records. For purposes of these laws, “education records” means those records that are: (1) Directly related to a student; and (2) Maintained by an educational agency or institution or by a party acting for the agency.

Educational records are maintained on every child enrolled in a public school. The types of information gathered and maintained includes, but is not limited to: the students and parents names, address, and telephone number, the student’s date and place of birth, date of enrollment in the school, records from previous schools attended, attendance record, credits earned , immunization records, disciplinary records, if any, correspondence from parents, and child find and other screening results, including hearing and vision screening results.

In addition, for children with disabilities, education records may include, among other things, evaluation and testing materials, medical and health information, each annual Individualized Educational Program (IEP), notices to parents, notes regarding IEP meetings, parental consent documents, information provided by parents, progress reports, assessment results, materials related to disciplinary actions, and mediation agreements.

Information contained in education records is gathered from a number of sources, including the student’s parents and school personnel. Typically, with parental permission, information may also be gathered from additional sources including doctors and other health care providers. This information is collected to assure proper identification of a student and the student’s parents and the maintenance of accurate records of the student’s progress and activities in school. For children with disabilities, additional information is collected in order to assure the child is identified, evaluated, and provided a Free Appropriate Public Education in accordance with Federal and State Laws.

Each agency participating under Part B of IDEA must assure that at all stages of gathering, storing, retaining, and disclosing education records to third parties that it complies with the federal confidentiality laws. In addition, the destruction of any education records of a child with a disability must be in accordance with the IDEA regulatory requirements.

FERPA affords parents and students over 18 years of age (“eligible students”) the following rights with respect to the student’s education records:

1. The right to inspect and review the student’s education records within 45 days of the day the school receives a request for access.
2. Parents or eligible students should submit to Julie Palma (or appropriate school official) a written request that identifies the records they wish to inspect. Julie Palma will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
3. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate or misleading.
4. Parents or eligible students may ask the School to amend a record that they believe is clearly inaccurate or misleading. They should write to Nate Palma; clearly identify the part of the record they want changed and specify why it is inaccurate or misleading.
5. If Nate Palma decides not to amend the record as requested by the parent or eligible student, the parent or eligible student will be so notified and advised of their right to a hearing regarding the request for the amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
6. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without parental consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Governing Board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant or therapist); or a parent or student serving on an official committee or assisting another school official in performing his/her tasks.

Upon request, a school may disclose education records without parental consent, to officials of another school in which a student seeks or intends to enroll.

Consistent with FERPA, if the School reports a crime committed by a student with a Disability, it will ensure that copies of the special education and disciplinary records of the student are transmitted for consideration by the appropriate authorities to whom it reports the crime.

The right to file a complaint with the U.S. Department of Education concerning alleged failures by a school to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:
